

31 October 2014

Recommendation Letter

Dear Sir /Madam

Kenako was sourced to provide services for two key events within the Institute.

- (i) In 2013 Kenako travelled with key project staff from the Institute to capture a significant milestone for the organisation viz. a Graduation Ceremony of the first Optometry graduates in Mozambique. They were tasked capture this significant event by taking a battery of professional photographs and producing a DVD of the event.
- (ii) In 2014 an introductory Video, highlighting the importance of eye health and all the project partners in the SA Child Eye Health Project was developed and played at the launch of this project at Ster-Kinekor Theaters in Gate, Durban.

Kenako have provided us with a quality and professional service. The Kenako team were knowledgeable, conducted themselves professionally and were pleasure to work with. Their obvious dedication and commitment when undertaking these projects was evident in the time and personal attention that they gave to the Institute team.

We would gladly recommend their services.

Yours Sincerely

Mrs Petronella Nichols

Africa Regional Director
